### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joel E. Lehrer on February 14, 2006.

Some of the claims contained in the instant application contained the use of parenthesis and made the scope of the claims ambiguous since the terms used in the parenthesis were broader than those outside.

6B The application has been amended as follows: *Insert claim set Attached hereto.*

Wherever the words "media work(s)" or just the word "media" by itself occurs, the words "digitised audio-visual work(s)" has been replaced.

Wherever the words "media key(s)" occur, the words "encryption key(s)" has been replaced.

A copy of the amended claims as they should appear has been attached.

### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance:

Peinado and Lee fail to disclose the license acquisition information causing the request for the media work from the first server. None of the other references cited in the prior action combine to disclose the amended limitations to claim 1.

Art Unit: 2132

An updated search did not uncover any new prior art. Peinado and Lee are the closest art of record. No art disclosing, nor motivation to combine has been found which recites the previously stated limitations.

All other pending claims are dependent upon allowable claim 1 and are allowable for that reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
